DEPARTMENT OF ECONOMICS AND DEVELOPMENT
950 Yonge Street, Toronto

The Ontario Department of Economics and Development promotes and assists economic and industrial growth and development and studies all matters relating to economic and financial conditions, trends and policies. Its main areas of responsibility are:

Trade and Industry—An extensive development program is now being implemented throughout the province. An Ontario "trade crusade" to increase employment and increase the province's economic growth rate is underway. This program includes sales opportunity missions to various parts of the world; manufacturing opportunities shows at which imported components are displayed so that Ontario firms can obtain new business; sponsorship of Ontario manufacturers in international trade fairs; and a massive public education campaign to encourage manufacturers to get out and export, and consumers to purchase more Canadian-made goods. The department is also active in promoting licensing arrangements and branch plants. Ontario Development Corporation—This Crown corporation provides capital funds and working capital to small business and offers an advisory service to firms.

Housing—An active public housing program is being carried out by the Ontario Housing Corporation.

Economics—Underlying the development work of other branches of the department, are the economic and social studies carried out in economic units under the Office of the Chief Economist.

MUNICIPALITIES IN ONTARIO

As of November 15, 1967

Cities (Counties 28, Districts 5)	33
Towns (Separated from County)	6
Boroughs	5
Towns (Counties 99, Districts 46)	145
Villages (Counties 144, Districts 11)	155
Townships (Counties 419, Districts 147)	566
Improvement Districts (Counties 1, Districts 16)	17
Total Local Municipalities	927
Counties (43)*	38
Metropolitan Toronto	1
Total Incorporated Municipalities	966

The northern portion of the Province of Ontario is divided into 11 Districts and the southern portion into 43 Counties. The union of the following counties, Leeds-Grenville, Northumherland-Durham, Prescott-Russell and Stormont-Dundas and Glengarry reduces the county administrations to 38 distinct units for local government. The districts, unlike counties, are not organized for municipal purposes and as a result, the 226 incorporated municipalities contained therein are not united for municipal administration.

With the exception of the 27 cities, the 6 municipalities comprising the municipality of metropolitan Toronto and the 6 separated towns which are located within counties, the remaining 663 local municipalities in counties are united for administration in the counties of which they form part. This relationship is for the purpose of the administration of interrelated interests such as education, roads, welfare and administration of justice. Memhers of the County Councils are composed of the reeves of all the local municipalities within the county and in certain cases the deputy reeves.

The 6 separated towns are: Gananoque, Ingersoll, Prescott, St. Marys, Smiths Falls, Trenton.

POLICE VILLAGES

In addition to the organized villages listed elsewhere in the Ontario section of the Canadian Almanac, there are some 158 police villages.

A police village is run hy a Board of Trustees elected hy the residents. The Board of Trustees runs its local affairs, but cannot levy any taxes or make by-laws which involve the horrowing of money. It has to send in a requisition to the authorities of the township of which it is part for any finances it requires, such as for local improvements or lighting or village constahulary.

*There are 43 Counties, some of which are united for purposes of local government as follows:
Leeds and Grenville,
Northumberland and Durham,
Prescott and Russell,
Stormont, Dundas and Glengarry.

METROPOLITAN TORONTO

The municipality of Metropolitan Toronto, hy act of legislature, (R.S.O. Chapter 260) controls the following utilities: certain roads in Metropolitan Toronto Toronto Transit Commission, Metropolitan School Board, Metropolitan Toronto Planning Board, Works Department, Police Department.

The areas affected are City of Toronto, Borough of Etohicoke, Borough of Scarborough, Borough of York, Borough of East York, Borough of North York.

DATES OF MUNICIPAL ELECTIONS

Municipal elections in Ontario are held at various dates provided for by The Municipal Act, Chapter 249, R.S.O. 1960, sections 43-51.

Section 43 provides that the nominations shall he held at noon on the last Monday in Decemher except when the last Monday is Christmas day in which case nominations shall be held on the preceding Friday, and the date for polling shall he the first Monday in January; unless council under authority of section 44, not later than Novemher 1st, passes a by-law fixing dates during the period Novemher 15th to January 2nd hoth inclusive for nominations and elections, said dates to he other than a Sunday or the 24th, 25th or 31st of Decemher and provided the day fixed for nominations is not less than seven days prior to the day fixed for polling, in force until repealed, hut no appeal or amendment after 1st of Novemher of any year.

In addition, when new municipalities are erected, the Municipal Board may set the date for the holding of their first elections.

CANADIANS TRAVELLING ABROAD

UNITED STATES IMMIGRATION REGULATIONS

Every person desiring to enter the United States for any purpose whatever, even for a limited time, must have (1) a passport from the Government to which such person owes allegiance, or other acceptable travel document, and (2) a visa issued by an American Consular officer; excepting Canadians and certain British subjects or Commonwealth citizens who may enter without passports or visas under certain conditions (for details see below).

Visas are of two kinds: (1) Immigrant visas, which are for permanent or indefinite residence in the United States, and (2) Non-immigrant visas, which are for temporary entry into the United States for definite short periods for business, pleasure, transit through, as a student, crewman, et cetera.

All persons applying for a nonimmigrant visa at United States consular offices in Canada must present a passport or other travel document valid for at least six months beyond the contemplated initial period of stay in the United States except Canadian citizens and certain British subjects or Commonwealth citizens.

Border Crossing Regulations

Canadian nationals and certain British subjects or Commonwealth citizens are not required to present passports and visas when entering the United States temporarily and a passport shall not be required of such a national or subject except after a visit outside of the Western Hemisphere. Satisfactory evidence of identity and citizenship may be required and would comprise Canadian or appropriate passport valid or expired, landed immigrant cards, Canadian birth or baptismal certificates, or Canadian certificates of naturalization.

Canadian citizens domiciled in Canada, entering the United States temporarily from other than the Western Hemisphere, do not require visas but must be in possession of unexpired passports.

Canadian citizens *not* domiciled in Canada, entering the United States temporarily, must present a valid passport.

Certain British subjects or Commonwealth citizens entering the United States from other than the Western Hemisphere, do not require visas but must be in possession of unexpired passports.

In addition, everyone should be in possession of evidence establishing that he is in fact a bona fide temporary visitor. Letters of reference from the applicant's employer or husband's employer, or bank manager if in business for self, are the most satisfactory. Those desiring further information regarding entry requirements may call in person or write to the nearest U.S. Consulate. For American Consulates in Canada, *see Index*.

American citizens do not require passports to re-enter the United States from Canada but must satisfy the immigration officials at the port of entry that they are in fact United States citizens.

CANADIAN PASSPORT AND VISA INFORMATION

Passports are issued in Canada at the Passport Office, Ottawa. They are valid for five years and may be renewed for an additional period of five years. Any person in possession of an old passport should submit it for inspection. Passport application forms are available at most Post Offices, travel agencies and banks throughout Canada and at the Passport Office itself.

Visas when required as detailed hereunder are obtainable from the representative in Canada of the country to be visited.

Canadians visiting the United States, Puerto Rico or the U.S. Virgin Islands for six months or less do not require a passport but proof of citizenship, if arriving from a Western Hemisphere country; they require a passport but not a visa if arriving from a country outside the Western Hemisphere. Those entering the United States for the purpose of engaging in gainful employment should obtain both passport and visa.

Valid passports but no visas are required by Canadians visiting the following countries for a reasonable period of time: Mexico (Tourist Card also required), Switzerland, Ireland, Commonwealth countries and most Commonwealth territories.

Valid passports but no visas are required by Canadians visiting the following countries for a period not exceeding three months: The Netherlands, Italy, Turkey, Austria, Monaco, Argentina, France, Switzerland, West Germany, Bolivia (Tourist card required), Chile, Denmark, Finland, Greece, Israel, Liechtenstein, Norway, San Marino, Spain, Sweden, Uruguay, Belguim, Luxembourg, Martinique, Guadeloupe, French Guiana, Iceland, Morocco and Japan.

Valid passports but no visas are required by Canadians visiting the following countries for a period not exceeding two months: Portugal, Brazil (Tourist card required) and Haiti.

Canadians travelling to other countries should communicate with the nearest representative of the country they wish to visit, for appropriate advice.

Citizens of Commonwealth countries in Canada who are not Canadians should apply for passports or renewals to the High Commissioner representing their country in Ottawa.

Canadians in British Commonwealth countries may obtain passports or renewals at the Offices of the High Commissioners for Canada in the respective countries on proof of citizenship.

Canadians in other countries may present applications re passports to the nearest Canadian diplomatic, consular or trade representative. In cases of emergency, United Kingdom representatives will renew passports for limited periods.

CANADIAN GOVERNMENT ANNUITIES

The Government Annuities System was set up in 1908 to encourage persons resident or domiciled in Canada to save for their old age by the purchase of deferred annuities and to enable older citizens to stretch out their accumulated savings by the purchase of immediate annuities. Canadian Government Annuities are payable for life and may be guaranteed for a period of years certain. Under deferred annuities, premiums are returned with interest if the annuitant dies before the annuity commences. The maximum amount of annuity obtainable is $1,200.00 a year. It may be obtained with an income reduction of $75.00 a month when Old Age Security begins, thus fitting in with the Old Age Security Act, in which event the maximum is the actuarial equivalent of $1,200 a year.

Individual contracts are in most instances eligible for registration as Retirement Savings Plans to get tax exemption on premiums in accordance with Section 79B of the Income Tax Act.

Employers may operate their pension plans through the purchase of Government Annuities for, or on behalf of, their employees. There are 1,416 such pension plans in operation, covering 122,576 working employees. In addition, there are 84,766 individual deferred annuity contracts in force. Annuity in the annual amount of $57,922,931 is being paid under 99,305 individual contracts and group certificates.

The premiums are moderate and annuities may be purchased through Canadian Government Annuities offices in 33 communities across Canada, or directly from Head Office.

For full particulars apply to C. R. McCord, Director of Annuities, Canada Department of Labour, Ottawa.

The National Gallery of Canada was established under the National Gallery of Canada Act (S.C., 1912-13. Chapter 33—now the National Gallery Act, R.S.C., 1952, Chapter 186). The beginnings of the National Gallery of Canada are associated with the founding of the Royal Canadian Academy of Arts in 1880. The Marquess of Lorne, then Governor General, had recommended, and assisted the founding of the Academy. Among the three tasks he assigned to that institution, one charged them with the establishment of a National Gallery at the seat of government. Lord Lorne also selected a group of pictures which formed the nucleus of the permanent collection. Until 1907, the National Gallery was directly under the control of a Minister of the Crown. In that year, the government appointed an Advisory Arts Council of laymen to administer grants to the National Gallery. In 1910, the first full-time curator was appointed. In 1913, when the National Gallery was incorporated by Act of Parliament, responsibility for administration was vested in a Board of Trustees appointed by the Governor in Council. The function of the Board is to administer and manage the Gallery, develop and conserve the national art collections, to encourage public interest in the arts and to promote the interests of art throughout the country. Today, the Board of Trustees is composed of nine members representing all sections of Canada. In 1951, responsibility for the Gallery was transferred from the Minister of Public Works to the Minister of Citizenship and Immigration, and in 1963 to the Secretary of State.

The permanent collection consists mainly of painting, sculpture, prints, and drawings from the European and Canadian schools. In 1957, the development of a Conservation and Scientific Research Division, as applied to works of art, was begun.

The National Gallery of Canada carries out an extensive programme. Exhibitions of art collections from abroad, from its own holdings, and from private and public sources are organized and circulated in Canada and abroad. Educational services are offered to the general public across Canada. Among these are included films, publications and reproductions of works of art. Lecture tours are also organized. A tour program of the National Gallery collections is available to visitors to, and residents of, Ottawa.

The National Museum of Canada, Ottawa

The National Museum of Canada originated in the Geological Survey of Canada which was founded in 1842 by Sir William Logan. Formerly the Victoria Memorial Museum, authority to designate it as the "National Museum of Canada," was given by Order-in-Council P.C. 2615 of January, 1927.

In 1957 the Museum was divided into two branches —the Natural History Branch which carries out scientific research and is responsible for exhibits in the field of natural history, and the Human History Branch which has the same responsibilities in the field of human history.

Aviation Museum forms the nucleus of the Museum of Science and Technology.

SCIENCE AND TECHNOLOGY BRANCH

Director—Dr. D. M. Baird.

In 1966 the Science and Technology Branch was established. This Branch of the National Museum conducts studies in the areas of physical sciences and technology with emphasis on items of national interest, including land transportation, agriculture technology, air transportation, chemistry, communications, energy, industry and mining.

NATURAL HISTORY BRANCH

This Branch deals with the sciences of Botany, Geology, Palaeontology and Zoology. Four main exhibition halls on Birds, Mammals, Dinosaurs and Minerals are maintained in the Victoria Memorial Museum building. Large research collections are held in that building and in three other buildings in Ottawa. These collections are open to study by qualified students including postdoctoral fellows and other contractees sponsored by the museum. The National Herbarium contains 309,000 sheets of vascular plants and 142,000 sheets of cryptogamic plants. The National Zoological collections include 116,000 lots of molluscs (2 million specimens), 22,500 lots (half a million specimens) of other marine invertebrates, 100,000 fishes, 50,000 reptiles and amphibians, 55,500 birds, and 37,000 mammals. The Palaeontological collections

include about 6,000 fossil specimens and the National Collection of Display Minerals, about 10,000 specimens. The Canadian Oceanographic Identification Centre was organized in 1967. Scientific and popular publications are available on these subjects.

The large collections of these departments, housed in 78 galleries, illustrate man's life, skills and arts through many centuries and in many lands—from the stone ages through the historical periods. The Near Eastern galleries document his earliest attempts to achieve an ordered, sedentary existence particularly in Egypt, Mesopotamia and neighbouring lands. Objects from Crete, Cyprus, Greece and Italy demonstrate the important pre-classical and classical heritage. The fine collection of Greek vases is particularly significant. The cultural history of Europe through the mediaeval and into the modern period is set forth in arms and armour, sculpture, ceramics, silver and glass, furniture, textiles, and costumes. Canada's cultural past is illustrated by textiles, furniture and wood carving in the main building and by paintings, prints and memorabilia in the Sigmund Samuel Canadiana Collection. The Far Eastern collection is of great importance with stress laid on Chinese bronzes, ceramics, jades, lacquers and tomb groups. The Ethnological collection is very large, illustrating the cultures of the American aborigines in North, Central and South America but containing important materials from all over the world.

Continually changing Special Exhibitions utilize both loan materials and objects from the permanent collections to focus public attention on particular aspects of man's culture.

EARTH SCIENCES DEPARTMENTS

Chief Mineralogist—V. B. Meen, M.A., Ph.D.; *Mineralogy—Curator*, J. A. Mandarino, B.S., M.S., Ph.D.; *Geology—Curator*, W. M. Tovell, B.A., M.S., Ph.D.

These departments have four galleries: (1) Physical Geology, (2) Mineral Deposits, (3) Precambrian Geology, and (4) Mineralogy. The first three were completed in November, 1962, with the aid of funds generously provided by the Trustees of the J. P. Bickell Foundation. The Gallery of Physical Geology is devoted to the features of the Toronto region, glaciation, rock formations, and the origin of the earth. It also contains the six-foot diameter Bickell Globe which divides to show the earth's interior. Meteorites and meteoritic craters are exhibited in this area. The Gallery of Mineral Deposits explains the origin and environment of economic mineral occurrences in general, and specific examples are given from eight mining districts of Ontario. A wall map 16 feet high and 20 feet wide shows, with 400 small electric lights, the distribution of 30 important mineral products of Canada. The lights turn on and off automatically, in sequence. The Gallery of Precambrian Geology features a model to show the enormity of Precambrian time compared to total earth history, and exhibits portray the complexity and importance of Precambrian Geology. This Gallery also contains an exhibit of highgrade gold ores.

The Mineralogy Gallery, housing one of the world's important mineral collections, has been re-designed under a grant from the International Nickel Company of Canada Limited, and re-opened in Nov. 1967.

LIFE SCIENCES DEPARTMENTS

Chief Biologist, L. S. Russell, M.A., Ph.D.; *Birds—Curator*, J. C. Barlow, A.B., A.M., Ph.D.; *Mammals—Curator*, R. L. Peterson, M.Sc., Ph.D.; *Fishes—Curator*, W. B. Scott, Ph.D.; *Invertebrates—Curator*, G. B. Wiggins, M.A., Ph.D.; *Fossil Vertebrates—Curator*—A. G. Edmund, M.A., Ph.D.; *Fossil Invertebrates*—T. M. Shortt

The gallery of Canadian animals features a reasonably complete collection of well-displayed mammals

and birds. Numerous habitat groups and special displays explain life histories and other features of interest. The recently-built gallery of fishes has a colourful systematic series, plus several excellent habitat groups and models of commercial fishing equipment. Displays in the gallery of foreign animals include representatives of most groups of mammals, birds and insects. The three galleries in the palaeontology section contain many rare and unique specimens. The systematic collection of invertebrates, is currently under re-construction. The dinosaur gallery features many complete skeletons and type specimens from the Cretaceons of Western Canada. A recent addition to the gallery of fossil mammals and fishes is an exhibit of bones recovered from the tar pits of Peru by a museum expedition. In 1962 a gallery of reptiles, with more than 150 specimens, was opened. It includes a series of dioramas with lifelike habitats and backgrounds. A new series of dioramas is under construction.

The scope and authenticity of the gallery displays are made possible by the continuous study of the vast library and research collections maintained in the departmental laboratories. The collections are also used by scholars the world over, being especially rich in birds, mammals, spiders, aquatic insects, Cretaceous dinosaurs and lower Paleozoic invertebrates.

REORGANIZED CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS

World Headquarters: Independence, Mo., U.S.A.

Canadian office, Box 38, Guelph, Ont.

CONFERENCE OF MENNONITES IN CANADA

600 Shaftesbury Blvd., Winnipeg 29, Man.

The church originated in Switzerland and Holland in the sixteenth century. The Canadian church began as a result of immigration and it has continued to grow through "waves" of immigration (1815-1860; 1873-1884; 1922-1930; 1947 f.) and propagation. At present there are approximately 59,000 haptized members. Including children there are 152,452 Mennonites in Canada according to the 1961 census.

The Mennonites have combined a strong evangelical and service emphasis. Foreign and home missionary activity is on the increase. A strong service and aid program has developed through the Mennonite Central Committee (MCC).

Their educational emphasis is partially evident in the eight Bible Schools, eight High Schools and three Colleges financed and operated by them. Increasingly more Mennonites are holding positions in state colleges and universities.

With this rapidly increasing interest in higher education accompanied by an equally rapid urbanization' the social and cultural patterns of the Mennonites are undergoing considerable change.

Through an active program of education and publication, the Mennonite Church seeks to help all of its members become profitable Christians in a changing society.

HISTORY AND GOVERNMENT

In May 1964, the Ontario Legislature passed the *University of Guelph Act, 1964*, creating the University of Guelph. Prior to this act, the Ontario Veterinary College, the Ontario Agricultural College, and Macdonald Institute operated under the Federated Colleges of the Ontario Department of Agriculture and were affiliated with the University of Toronto. This affiliation with the University of Toronto was established in 1888 and, since that time, over 11,000 students received their degrees from this University. On July 1, 1964, affiliation with the University of Toronto ceased and degrees are now granted by the University of Guelph.

The Ontario Veterinary College was established under private charter in 1862. It was the first of the accredited veterinary colleges now operating to be founded in North America. Teaching began in 1864 and the first degrees were awarded in 1866. In 1908 the College was placed under the jurisdiction of the Ontario Department of Agriculture. In 1908 a form of affiliation to the University of Toronto was established and this was made complete in 1919 when the degrees were granted by the University. In 1922 the College was transferred from Toronto to Guelph.

The Ontario Agricultural College was established by the Province of Ontario in 1874 as the School of Agriculture and teaching began that year. In 1880 an Act of Incorporation was passed changing the name to the Ontario Agricultural College.

Macdonald Institute was established by the Province of Ontario in 1903 as a Division of Home Economics at the Ontario Agricultural College. In 1952 the first degrees were conferred in Household Science by the University.

Schools for the Deaf, Mute or Blind

Alberta

Alberta School for the Deaf, Edmonton

Superintendent, F. G. F. Cartwright.

This school for the deaf was opened in Alberta in the year 1955 by the Department of Education. The school provides academic and pre-vocational programs to day and residential pupils.

Blind children are sent, at governmental expense, to schools operated elsewhere in Canada.

The Department of Education pays grants to assist School Boards with the operation of sight saving and hard-of-hearing classes.

British Columbia

JERICHO HILL SCHOOL, 4100 West 4th Ave., Vancouver 8, B.C. *Superintendent*, P. O. Freemantle, B.Ed.

Manitoba

MANITOBA SCHOOL FOR THE DEAF

500 Shaftesbury Blvd., Winnipeg 29, Manitoba

Principal, Donald M. Plummer, M.A., B.Ed.

The Manitoba School for the Deaf underwent a thorough renovation in 1965 and now provides residential and day school accommodation for all deaf children of school age in Manitoba. Enrollment for the school year 1966-67 was 139, 54 in residence and 85 day pupils.

All the blind children from Manitoba are attending the Ontario School for the Blind at Brantford, Ont.

New Brunswick

Provision is made for the education of Deaf, Mute and Blind children of New Brunswick at approved Institutions outside the Province.

The cost of educating Blind and Deaf Children is borne solely by the provincial government. This change in method of payment became effective as of January 1, 1967.

In September 1961 the Interprovincial School for the Education of the Deaf was opened in Amherst, Nova Scotia. This is a joint project between the provinces of New Brunswick and Nova Scotia. Students from Prince Edward Island and Newfoundland are admitted on a tuition basis. This school, at the present time, is for English-speaking students only.

English-speaking blind students from New Brunswick attend a School for the Blind in Halifax, Nova Scotia.

French-speaking students are educated at approved institutions in the Province of Quebec.

(*See Nova Scotia listing below*).

Newfoundland

Newfoundland has no schools for the Blind but the Provincial Government makes substantial contributions towards the cost of tuition and board for the education of blind children at the Halifax School for the blind. In 1964 a school for the deaf was opened in temporary quarters at Fort Peppernell. This has now been removed to the former R.C.A.F. station at Torbay. It is capable of accommodating over 100 students.

Nova Scotia

INTERPROVINCIAL SCHOOL FOR THE EDUCATION OF THE DEAF

It is managed by a Board of Directors consisting of seven members, two appointed by the New Brunswick Government and five by the Government of Nova Scotia. The costs are shared by the two Provinces in proportion to the number of pupils attending from each Province. Parents are not charged for board or tuition.

A School for the Deaf opened at Charlottetown, September 1959. Eventually all deaf children of the province may be educated there. Those requiring training of a vocational or technical nature are educated in Nova Scotia or elsewhere, as it is not economically feasible to provide this service in P.E.I.

York University, incorporated in 1959, admitted its first students in September, 1960. Established originally as an affiliate of the University of Toronto, the University introduced in 1963 its own curriculum with courses leading to the ordinary degree of Bachelor of Arts or Bachelor of Science after three years, and the degrees of Bachelor of Science with honours, Bachelor of Arts with honours, in a number of specialized fields, or Bachelor of Arts with General Honours after four years.

The degrees of Bachelor of Arts and Bachelor of Arts (Administration) are offered through the Joseph E. Atkinson College, the evening division of the University, established in 1962 for students attending on a part-time basis. Since 1964 the College has operated on a year-round basis. The Centre for Continuing Education offers non-degree courses.

In 1964-65 the Faculty of Graduate Studies offered M.A. and Ph.D. programmes in Psychology. In 1965-66 an M.Sc. programme in Biology was initiated, and M.Sc. and Ph.D. programmes in Physics, Chemistry and Experimental Space Science were authorised. Graduate students enrolled, for the first time, in 1965-66 in the Centre for Research in Experimental Space Science, a co-operative research endeavour of the Physics and Chemistry programmes. M.A. and Ph.D. programmes in Philosophy were offered in 1966-67 as well as a programme in Business Administration leading to the M.B.A. degree. M.A. programmes in English, Geography, Mathematics, Political Science and Sociology were offered in 1967-68. Ph.D. programmes in English, Political Science and Sociology are scheduled to be offered in 1968-69.

The Faculty of Administrative Studies and its School of Business were established in 1966.

All programmes offered by York University require students to complete, mainly in the first two years of study, certain broadly-based courses in which modern liberal knowledge is approached by means of inter-displinary study. The University is built on the college system whereby each student, resident or commuter, is associated with a college of about 1,000 students. In the first two years, much of his formal work and extra-curricular activities will take place in the college.

The University opened its new campus (York Campus) on the northwestern outskirts of Metropolitan Toronto in September, 1965. On July 1st, 1966, its Glendon Campus, from 1961 to 1965 the site of all the University's activities, became the site of Glendon College, a small, co-educational, residential, liberal arts college of York University, whose special emphasis will be on public affairs. On the York Campus, twelve colleges are planned by 1980—three have already opened—Founders College (1965), Vanier College (1966) and Winters College (1967). In 1968, The Osgoode Hall Law School of York University will become a Faculty of the University, pursuant to an agreement announced in 1965 between York University and the Law Society of Upper Canada. Students enrolling in Osgoode in the fall of 1966 will complete their courses and receive their LL.B. degrees at York.

National Office, 1929 Bayview Ave., Toronto 17, Ont.

President, G. C. Thompson; *Managing Director*, A. N. Magill, M.A.; *General Manager*, J. D. Johnston; *Newfoundland Division*, 70 Boulevarde, St. John's, Nfld.; *Maritime Division*, 6126 Almon St., Halifax, N.S.; *Quebec Division*, 1425 Crescent St., Montreal, Que.; *Ontario Division*, 1929 Bayview Ave., Toronto 17, Ont.; *Manitoba Division*, 1031 Portage Ave., Winnipeg, Man.; *Saskatchewan Division*, 2550 Broad St., Regina, Sask.; *Alberta Division*, 12010 Jasper Ave., Edmonton, Alta.; *British Columbia-Yukon Division*, 350 E. 36th Ave., Vancouver, B.C.

The Institute is a private organization supported by some Government grants and public subscriptions. Its Employment Department trains and places blind men and women in general business and industrial employment. CNIB also operates sheltered shops for blind persons who cannot work in regular industry. It controls tobacco stands, news stands and industrial cafeterias, managed by the sightless. It gives instruction in Braille reading and writing, typewriting and handicrafts. CNIB supplies raw materials at cost and provides facilities for the sale of articles made by home workers. It maintains libraries of Braille and Talking Books. CNIB maintains a year-round recreation program as a means of adjustment and development for the blind. Every division has a social service department and in some of the larger cities there are residence and general service centres for the blind. The Institute is also active in preventing blindness wherever possible. In 1962 the CNIB established The E. A. Baker Foundation for Prevention of Blindness to provide scholarships, fellowships and specified grants to ophthalmologists and their allied services for research, equipment and other facilities not available through regular channels.

The Eye Bank of Canada, providing healthy tissue for the sight-restoring corneal transplant, is a CNIB service.

1968 is the 50th anniversary of CNIB service to the blind of Canada.

FOREIGN PUBLISHERS SHOWING CANADIAN REPRESENTATIVES

The following directory lists those British, Canadian, and foreign publishers who have representatives stocking their publications in Canada.

For the reader's convenience, each publisher is followed by code letters indicating the Canadian firm that acts as agent.

Most Canadian representatives will sell direct to large libraries but many will refer smaller orders, especially from individuals, to booksellers. For individuals and all those who prefer the convenience of ordering from one source a directory of members of THE CANADIAN BOOKSELLERS ASSOCIATION appears on page 719.

Ten Per Cent Additional Discount

The importer of goods entitled to the benefits of the British Preferential Tariff is entitled to a discount of ten per centum on the amount of duty computed under such Tariff, when such goods are conveyed without transhipment from a port of a country enjoying the benefits of the British Preferential Tariff into a port of Canada on importation and when such goods are shipped on a through bill of lading consigned to a consignee in a specified port in Canada, when such goods are transferred at a port of a British possession and conveyed without further transhipment into a port of Canada.

Provided, however, that this discount shall not apply to duties on any of the following articles, viz., wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol; sugar, tobacco, cigars and cigarettes.

Provided further that this discount shall not apply in the case in which the duty does not exceed fifteen per centum *ad valorem*, or, in the case of a specific duty or a specific and *ad valorem* duty combined in which the computed rate does not exceed fifteen per centum *ad valorem*, or to goods admitted into Canada which have the benefit of reductions provided for in the Canada-West Indies Trade Agreement, 1926.

Note—The 10% additional discount does not apply when the British preferential tariff is the same rate as Most-Favored-Nation tariff agreed to at Geneva.

Goods of a class subject to duty under the Excise Act are exempt from special duty. Also duties and taxes imposed in the country of export may be disregarded in estimating the value for the purposes of special duty.

MOST-FAVORED-NATION TARIFF

The rates of customs duties, if any, under the "Most-Favored-Nation Tariff", shall apply to goods the growth, produce or manufacture of any British or foreign country to which the benefits of such Most-Favored-Nation Tariff have been extended in the manner hereinafter provided or to goods the growth, produce or manufacture of any foreign country to which the benefits of the Intermediate Tariff applied on May 1, 1948, when imported into Canada direct from a country entitled to the benefits of the Most-Favored-Nation Tariff.

GENERAL TARIFF

3. The rates of Customs duties, if any, set forth in "General Tariff" shall apply to all goods imported from any country not entitled to the benefits of the British Preferential Tariff or of the Most Favored Nations Tariff or to goods entitled to rates of Customs duties more favourable than those of the British Preferential Tariff.

SPECIAL NOTES RE TREATIES, ETC.

BRITISH PREFERENTIAL TARIFF

Section 5 of the Customs Tariff Act provides that, with certain exceptions, goods entitled to entry under the British Preferential Tariff are subject to a discount of ten per cent on the amount of duty computed under such tariff when the *ad valorem* rate of duty exceeds fifteen per cent, or in the case of a specific duty or a specific and *ad valorem* duty combined the computed rate exceeds fifteen per cent *ad valorem*. The exceptions, to which the discount does not apply are sugar, tobacco, cigars, cigarettes, wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol, imported goods which have the benefit of reductions provided for in the Canada-West Indies Trade Agreement, 1926, and goods on which the rate of customs duty under the British Preferential Tariff is the same as the rate of customs duty under the Most-Favoured-Nation Tariff.

AUSTRALIAN TRADE AGREEMENT

Goods the growth, produce or manufacture of Australia enumerated in Schedule "A" of this Agreement enjoy the benefits indicated in the said Schedule and also enjoy the benefit of the lowest rates of customs duty applicable to similar goods imported from any other country. Certain margins of preference must be maintained between the Most-Favoured-Nation rates and those provided in Schedule "A". To enjoy these tariff advantages, the goods are required to be shipped direct from Australia into Canada except in special cases where goods are shipped from Australia to Canada on a through bill of lading and the Australian Government certifies that direct shipment to Canada is not reasonably practicable. All other goods, being the growth, produce or manufacture of Australia, when imported into Canada enjoy the benefits of the British Preferential Tariff. Notwithstanding the provisions of the customs laws and regulations of Canada or other provisions of the Agreement, dried currants and raisins that are the growth or produce of Australia and that are not imported direct into Canada shall be subject to Most-Favoured-Nation Tariff rates. Goods imported in accordance with the terms of the Agreement are not subject to the provisions of section 6 of the Customs Tariff except under certain conditions outlined in Article VI of the Agreement.

NEW ZEALAND TRADE AGREEMENT

The rates of duty set forth in Schedule "A" of this Agreement, when lower than the British Preferential Tariff rates on similar goods, apply to New Zealand only and not to other countries entitled to the benefits of the British Preferential Tariff. The rates indicated in Schedule "A" shall in no case be higher than the rates chargeable on similar goods under the British Preferential Tariff. To all other goods, the produce or manufacture of New Zealand, the benefits of the British Preferential Tariff are granted. To enjoy the tariff advantages under this Agreement goods are required to be shipped direct into Canada from New Zealand, except in special cases where goods are shipped from New Zealand to Canada on a through bill of lading and the New Zealand Government certifies that direct shipment to Canada is not reasonably practicable. Goods imported in accordance with the terms of this Agreement are not subject to the provisions of Section 6 of the Customs Tariff Act, except under certain conditions outlined in Article 4 of the Agreement. Attention is drawn to the fact that, under Section 3 of the Customs Tariff Act, New Zealand is entitled to the benefits of the British Preferential Tariff, and hence New Zealand goods imported from a country entitled to the benefits of the British Preferential Tariff, and not direct as provided in the Agreement, are entitled to British Preferential Tariff rates but subject to the provisions of Section 6 of the Customs Tariff Act. The benefits of the Agreement also apply to goods the produce or manufacture of Western Samoa and the Cook Islands. Goods, the produce or manufacture of New Zealand, are entitled to as favourable rates as are granted to any foreign country.

WEST INDIES TRADE AGREEMENT

Goods, the produce or manufacture of any of the Colonies mentioned in the Agreement, which are conveyed without transhipment (except transhipment at a port of any of the said Colonies) by ship, direct into a sea or river port of Canada, are entitled to entry at the rates of duties provided for in the Agreement. Goods other than those provided for in Schedule "A" shall not be subject to more than fifty per cent of the duties imposed on similar goods under the General Tariff, with the exception of tobacco, cigars, cigarettes and spirituous or alcoholic liquors.

Attention is drawn to the fact that the Colonies mentioned in this Agreement are entitled to the benefits of the British Preferential Tariff. Goods the produce or manufacture of any of the Colonies mentioned in the Agreement, are entitled to as favourable rates as are granted to any foreign country.

UNION OF SOUTH AFRICA TRADE AGREEMENT

Goods the produce or manufacture of the Union of South Africa, enumerated in Schedule "A" of this Agreement, enjoy the benefit of the concessions indicated in the said Schedule and also enjoy the benefit of the lowest rates of Customs duty applicable to similar goods imported from any country, provided that such goods shall not be entitled to the benefit now accorded to the products of the British West Indies, Bermuda, British Guiana, and British Honduras by virtue of the trade agreement existing between the Governments of these colonies and the Government of Canada. To enjoy the tariff advantages under this Agreement goods are required to be imported direct from the Union of South Africa into Canada. Indian corn or maize, the produce of the Union of South Africa, imported into the Dominion of Canada at a price not lower than that quoted for Indian corn or maize of similar quality on the Baltic Exchange, London, shall not be subject to the provisions of Section 6 of the Customs Tariff of Canada; this provision will cease to be operative if after 30th April 1934, the export of Indian corn or maize from the Union of South Africa to the Dominion of Canada be subsidized. For the purposes of this Agreement, the Mandated Territory of South West Africa shall be deemed to be part of the Union of South Africa. Attention is drawn to the fact that, under Section 3 of the Customs Tariff Act, the Union of South Africa is entitled to the benefits of the British Preferential Tariff.

GENERAL AGREEMENT ON TARIFFS AND TRADE

Tariff items and rates of duty under the General Agreement on Tariffs and Trade (GATT), are shown in Schedule "A" of the Customs Tariff *only* when they differ in text or when the rates are lower than those established by Statute or by Order in Council. When tariff items and rates of duty in GATT are identical with legislatively established items and rates, they are not repeated in this Office Consolidation, but they are indicated by the symbol ■. For complete information regarding GATT items and bound rates, see Customs Memorandum D48-2.

5. If at any time it appears to the satisfaction of the Minister that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Minister may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

6. If at any time it appears to the satisfaction of the Minister that any person owning or controlling or interested in a business in Canada and also in any other country, or any person carrying on a business in any other country and owning or controlling or interested in a business operating in Canada, and by reason thereof is enabled to import goods for further manufacture or assembling or for resale, and while complying with the legal requirements on importation disposes of such imported goods, whether in the form as imported or as further processed, assembled or manufactured, at prices below the duty paid value thereof as entered at Customs plus, or including all charges upon the goods after shipment from the place whence exported direct to Canada, including sales, distribution and advertising costs, and plus if any, the cost of processing, assembling or further manufacturing in Canada, the Minister may declare that goods of such class or kind were and are on importation subject to an additional special or dumping duty not exceeding fifty per cent and authorize such action as is deemed necessary for the collection thereof.

7. If the full amount of any special duty of Customs as herein provided has not been paid on goods imported, the Customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector.

8. The Minister may make such regulations as are deemed necessary for carrying out the provisions of this section and for its enforcement.

9. For the purposes of this section, goods may be deemed to be of a class or kind not made or produced in Canada where similar goods of Canadian production are not offered for sale to the ordinary agencies of wholesale or retail distribution or are not offered to all purchasers on equal terms under like conditions, having regard to the custom and usage of trade.

10. For the purpose of this Act goods shall not be deemed to be of a class or kind made or produced in Canada unless so made or produced in substantial quantities; and the Governor in Council may provide that such quantities, to be substantial, shall be sufficient to supply a certain percentage of the normal Canadian consumption and may fix such percentages.

Raising Prices: Removal of Duty.

In the event of the producers of goods in Canada increasing prices in consequence of the imposition of any duty or using any such duty to maintain prices at levels deemed by the Governor in Council to be higher than should prevail having regard to general economic conditions in the country, the Governor in Council may reduce or remove such duty. This does not apply to agricultural products.

COMBINE CLAUSE

Whenever the Governor in Council deems it to be in the public interest to inquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor in Council may commission or empower any judge of the Supreme Court, or of the Exchequer Court of Canada, or of any superior court or county court in Canada, to hold an inquiry in a summary way and report to the Governor in Council whether such conspiracy, combination, agreement or arrangement exists.

If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor in Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor in Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.
